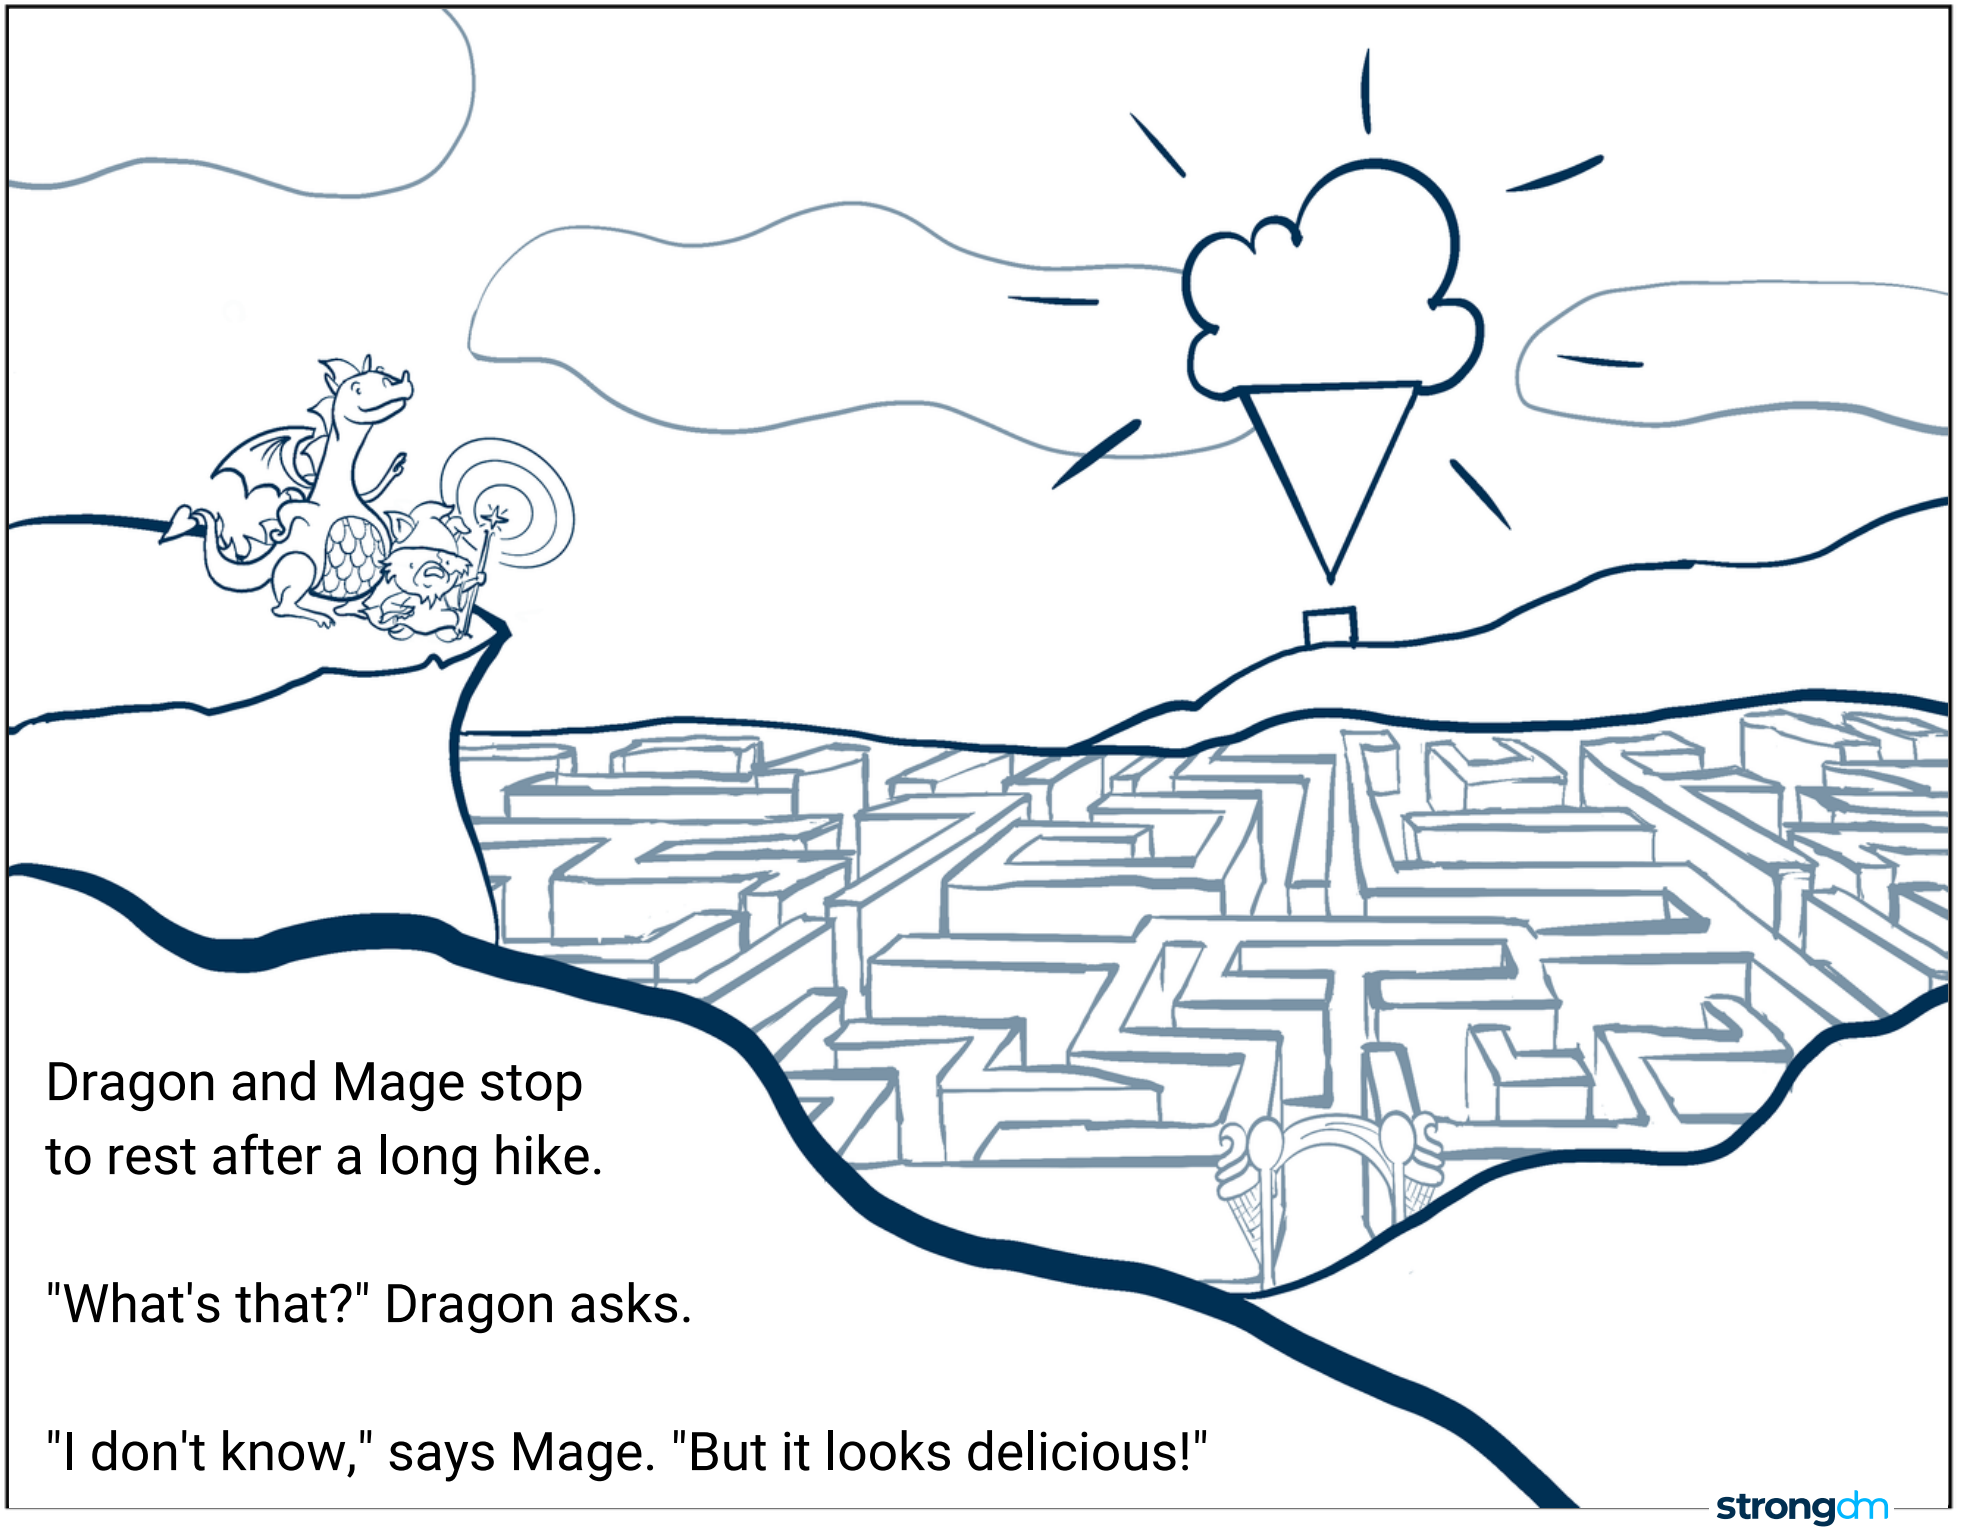
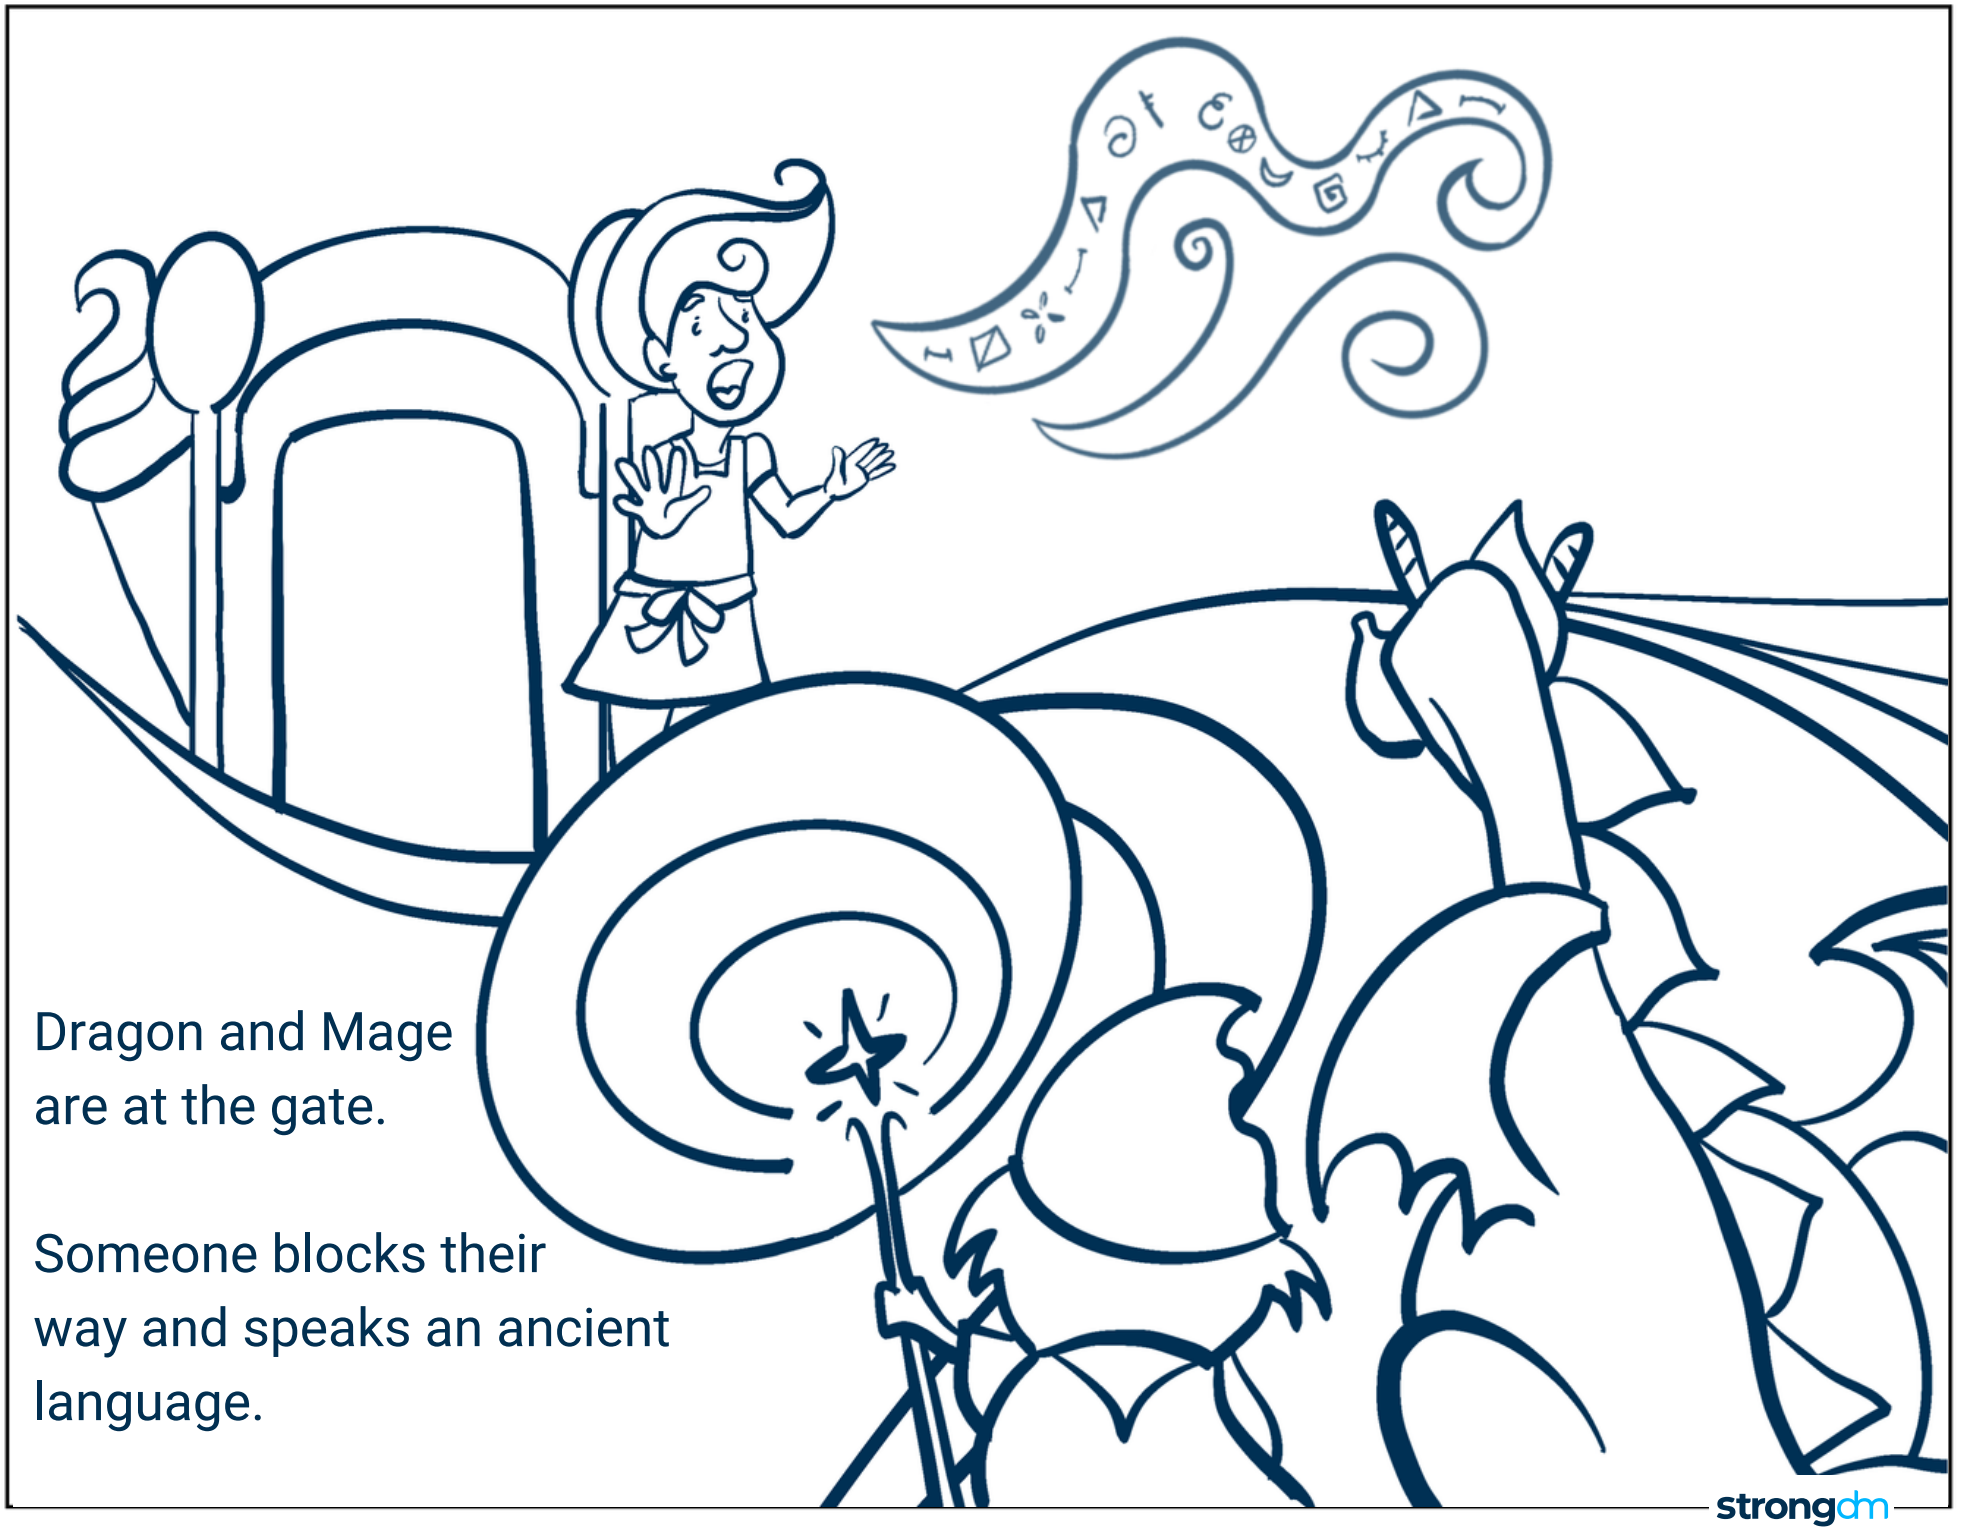
The Adventures of Dragon and Mage

A Quest for the Tastiest Ice Cream

by strongdm



Dragon and Mage stop
to rest after a long hike.
"What's that?" Dragon asks.
"I don't know," says Mage. "But it looks delicious!"
strongdm



Dragon and Mage are at the gate.
Someone blocks their way and speaks an ancient language.

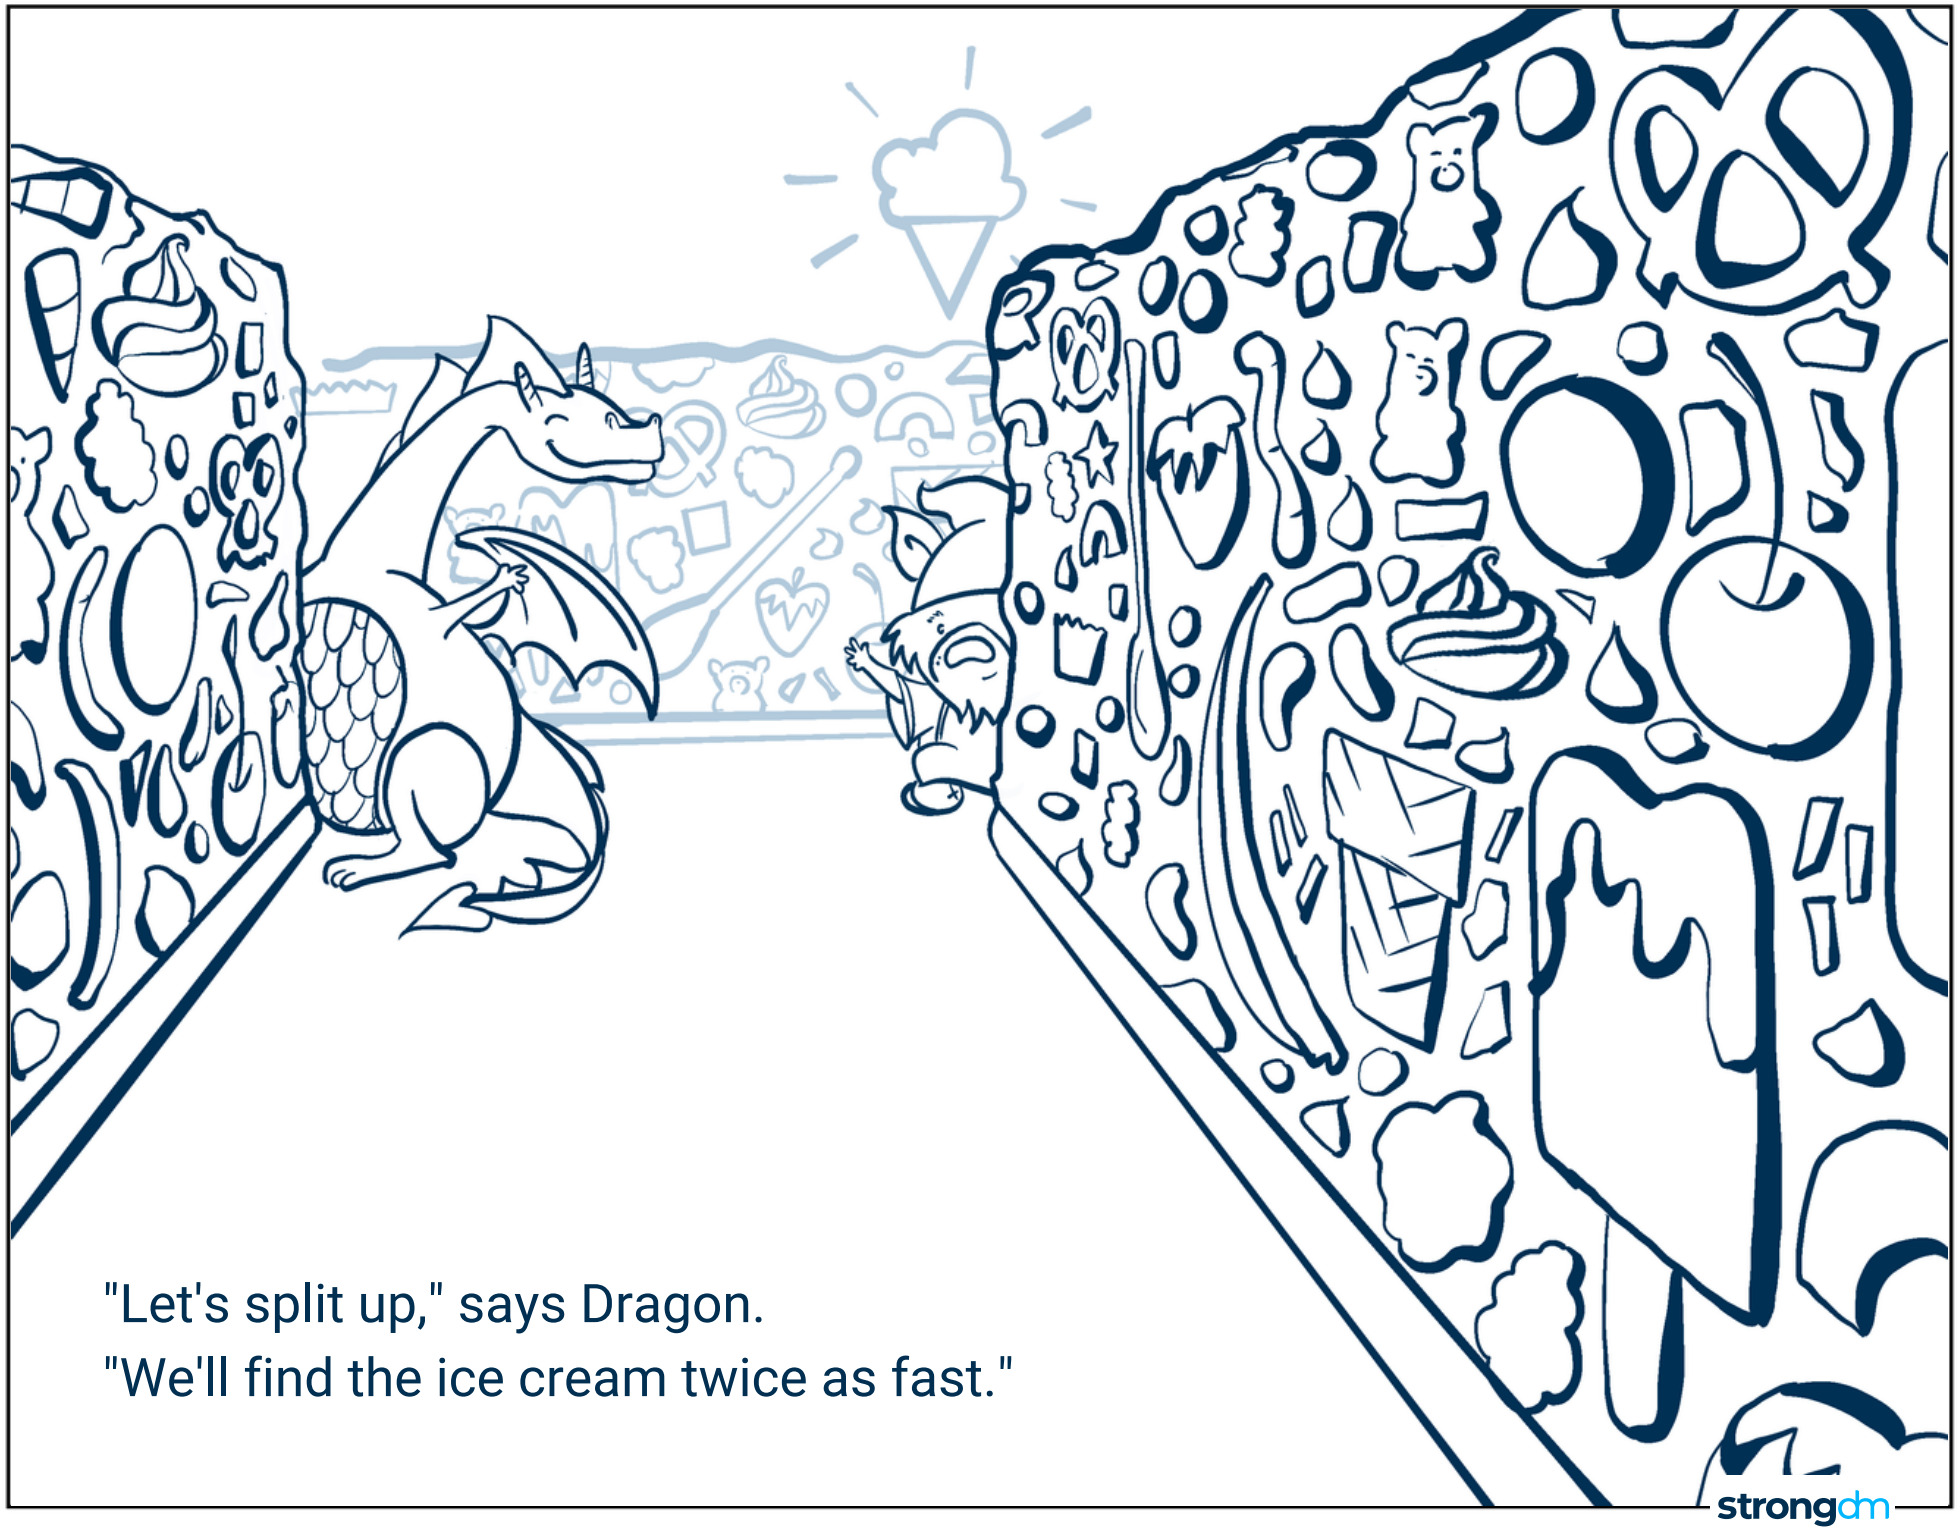
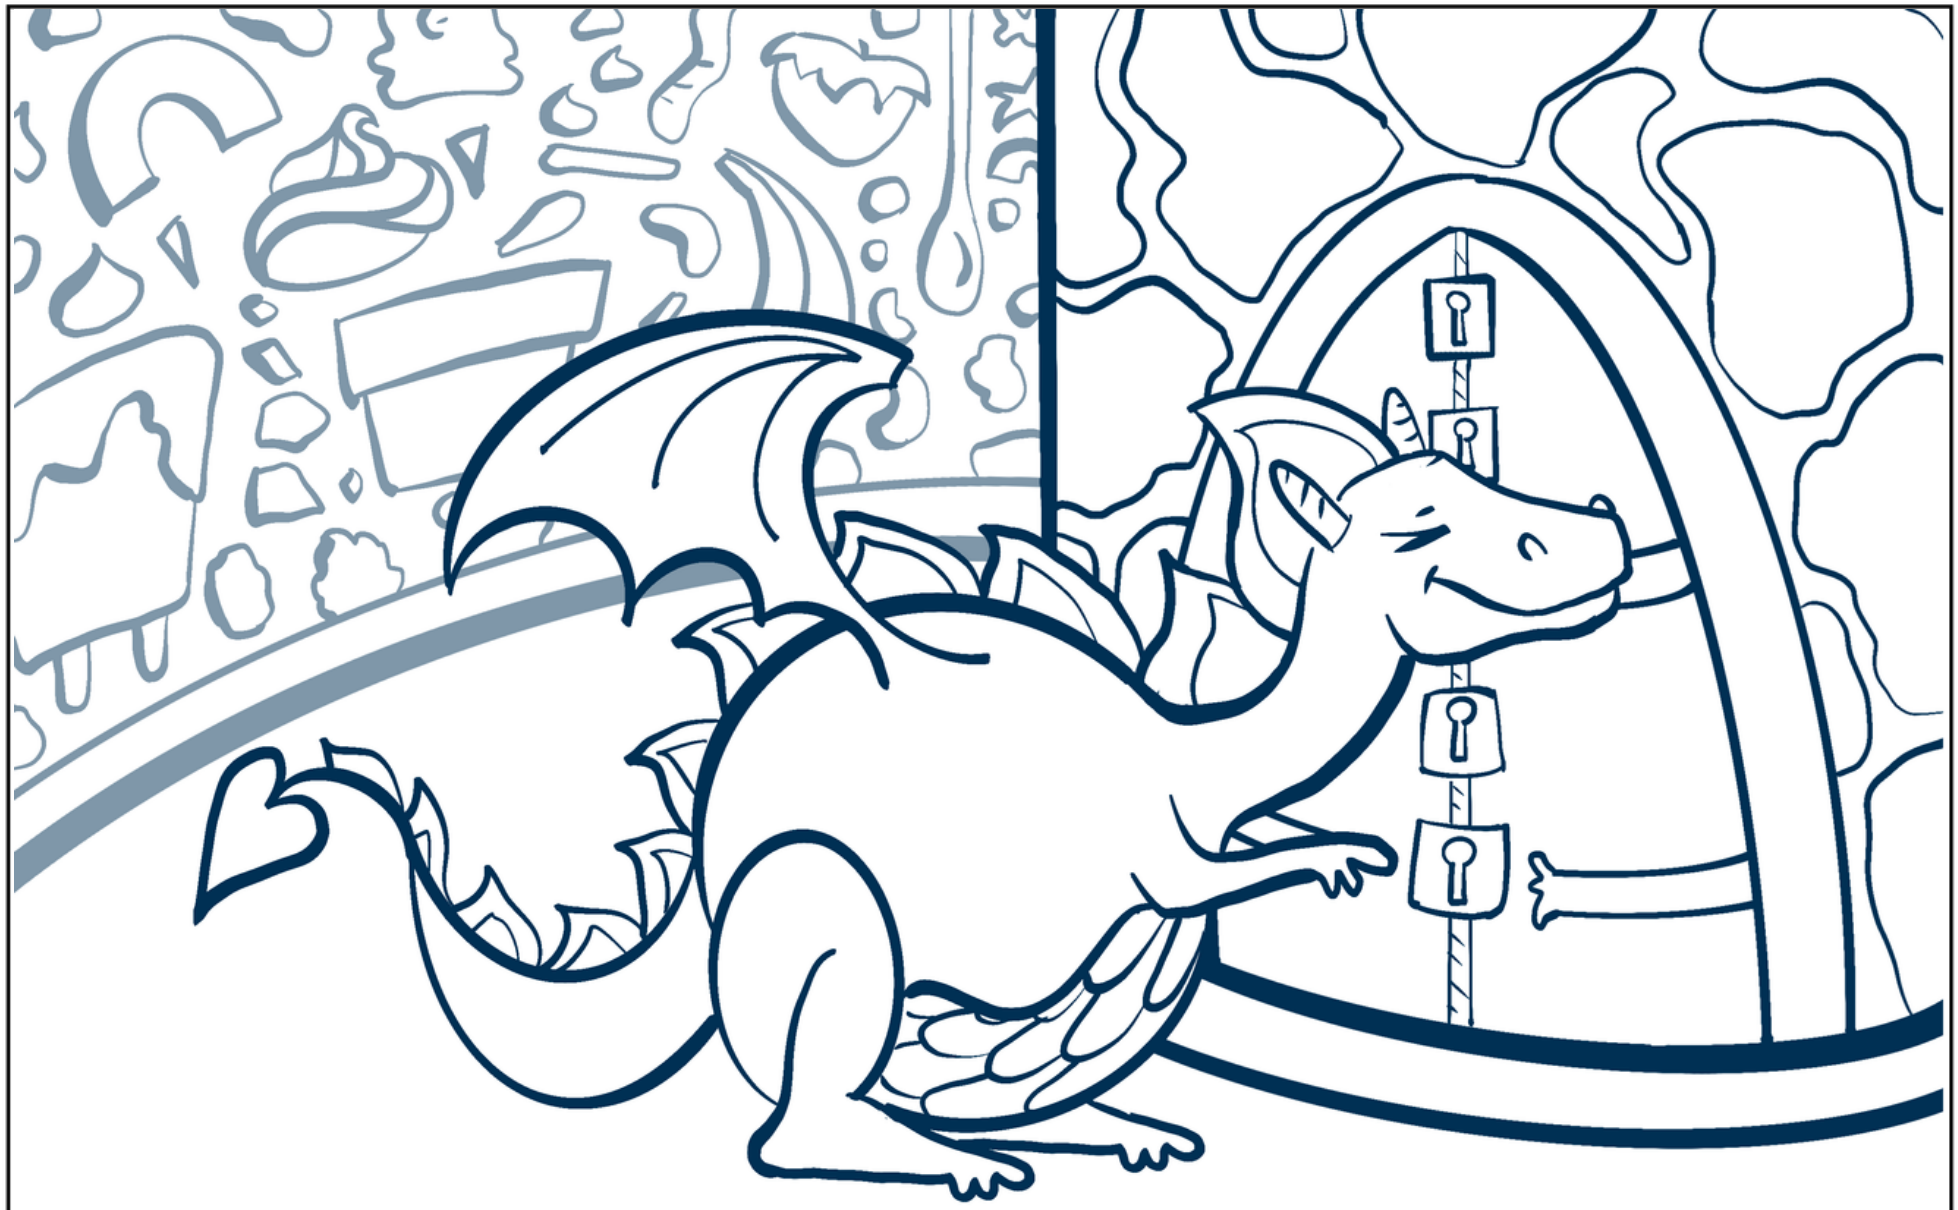
YUMMY

Solve the word search to secure entry into the labyrinth.

strongdm



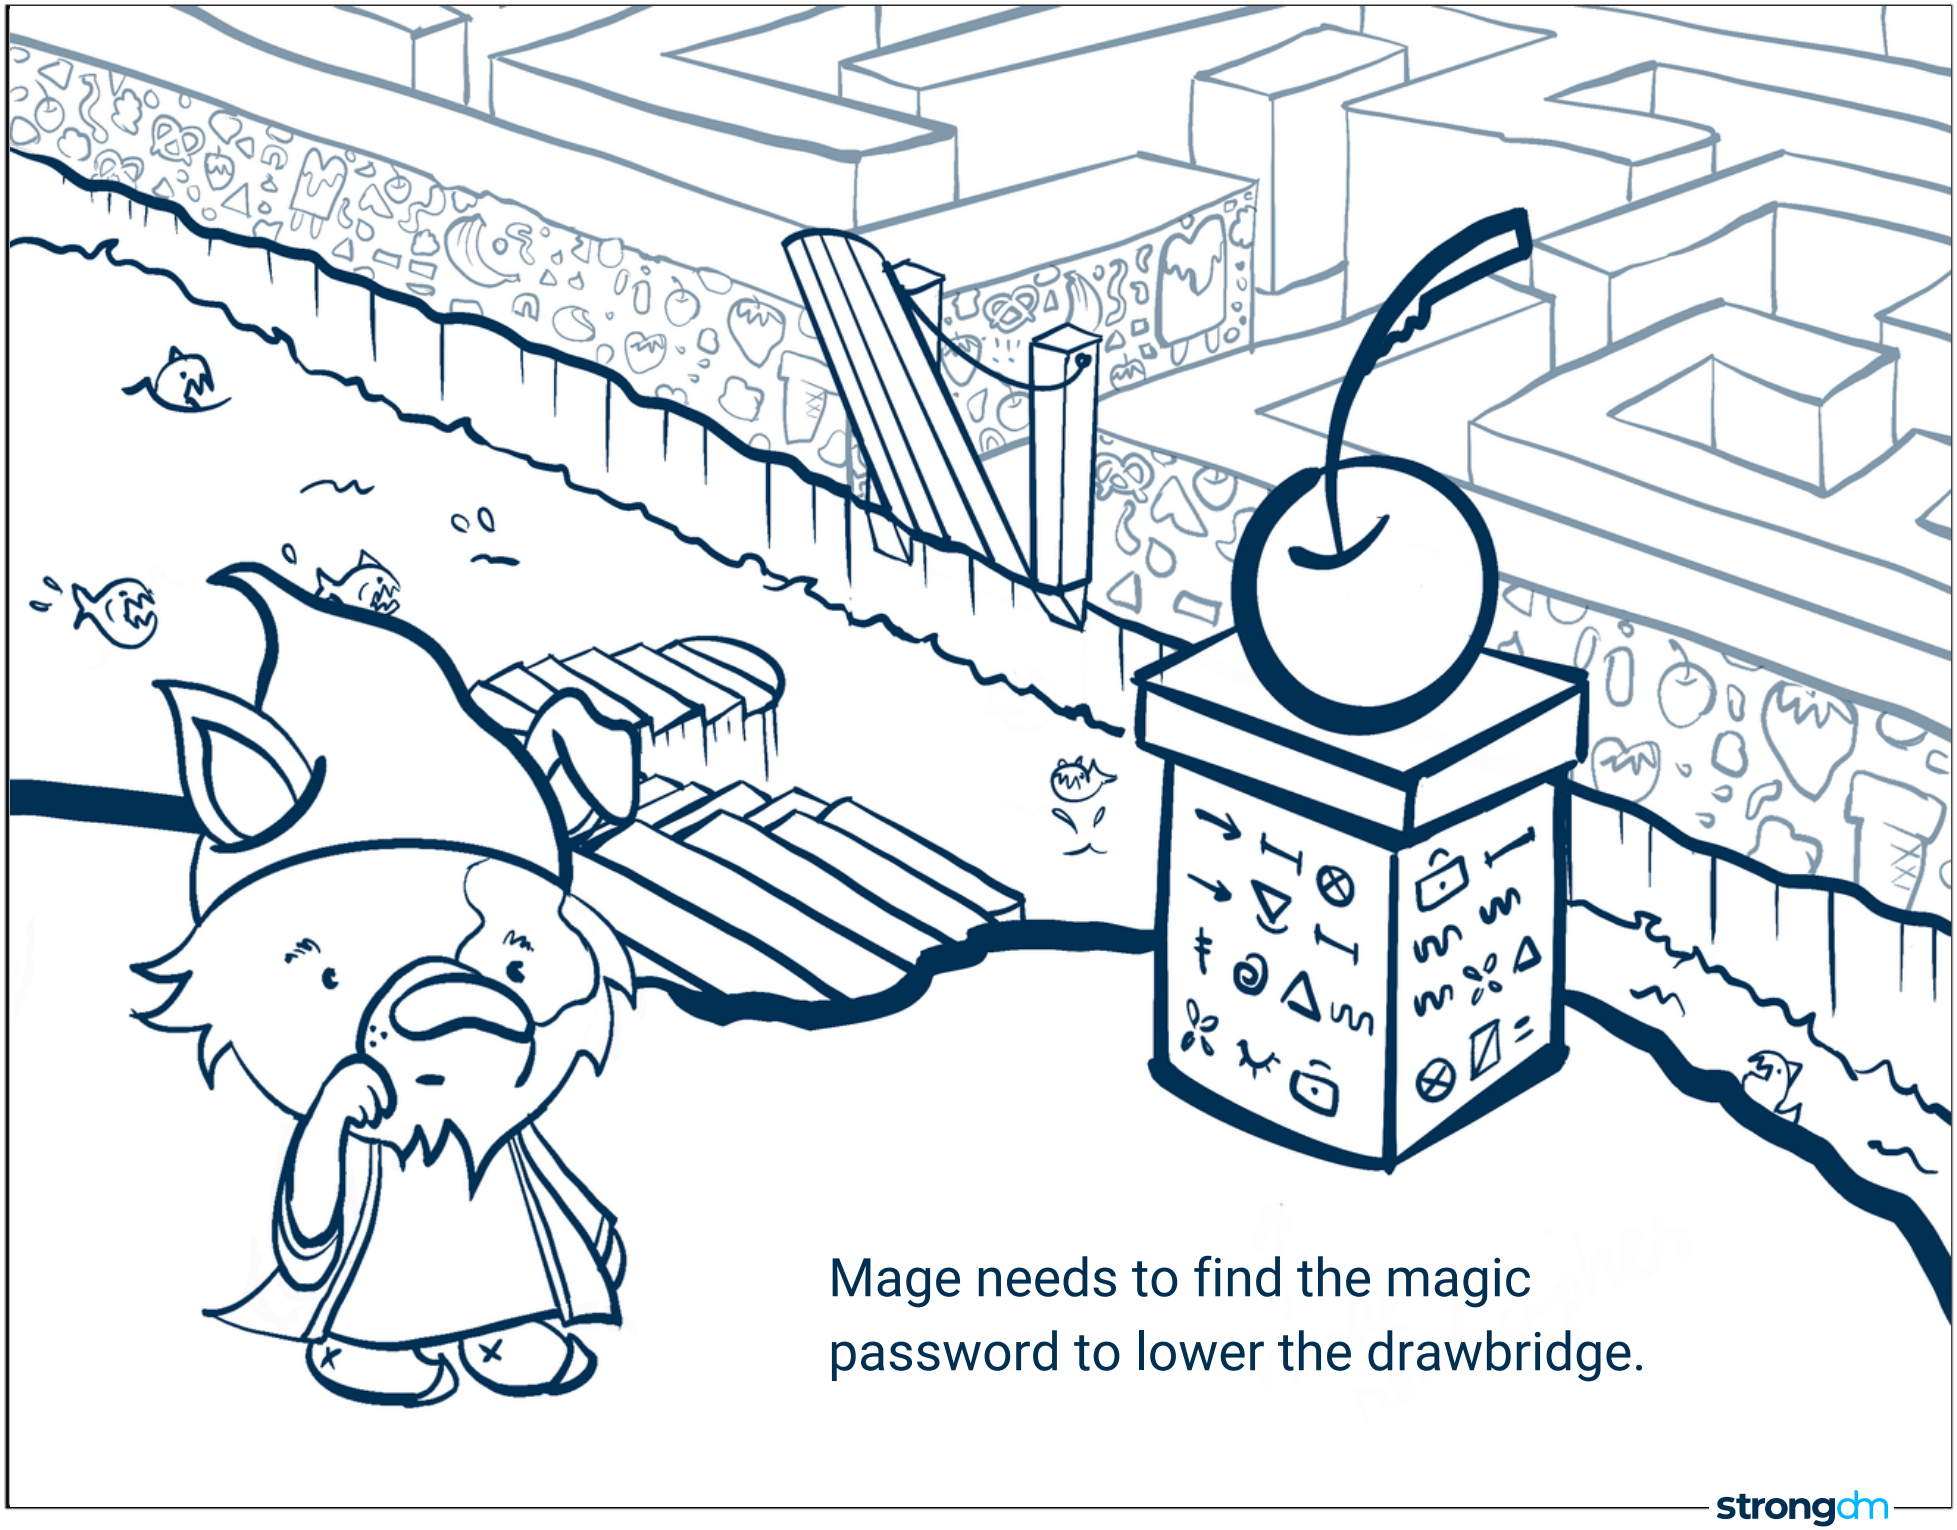
"Let's split up," says Dragon.
"We'll find the ice cream twice as fast."
strongdm



Dragon comes to a door that's locked. The key is missing.

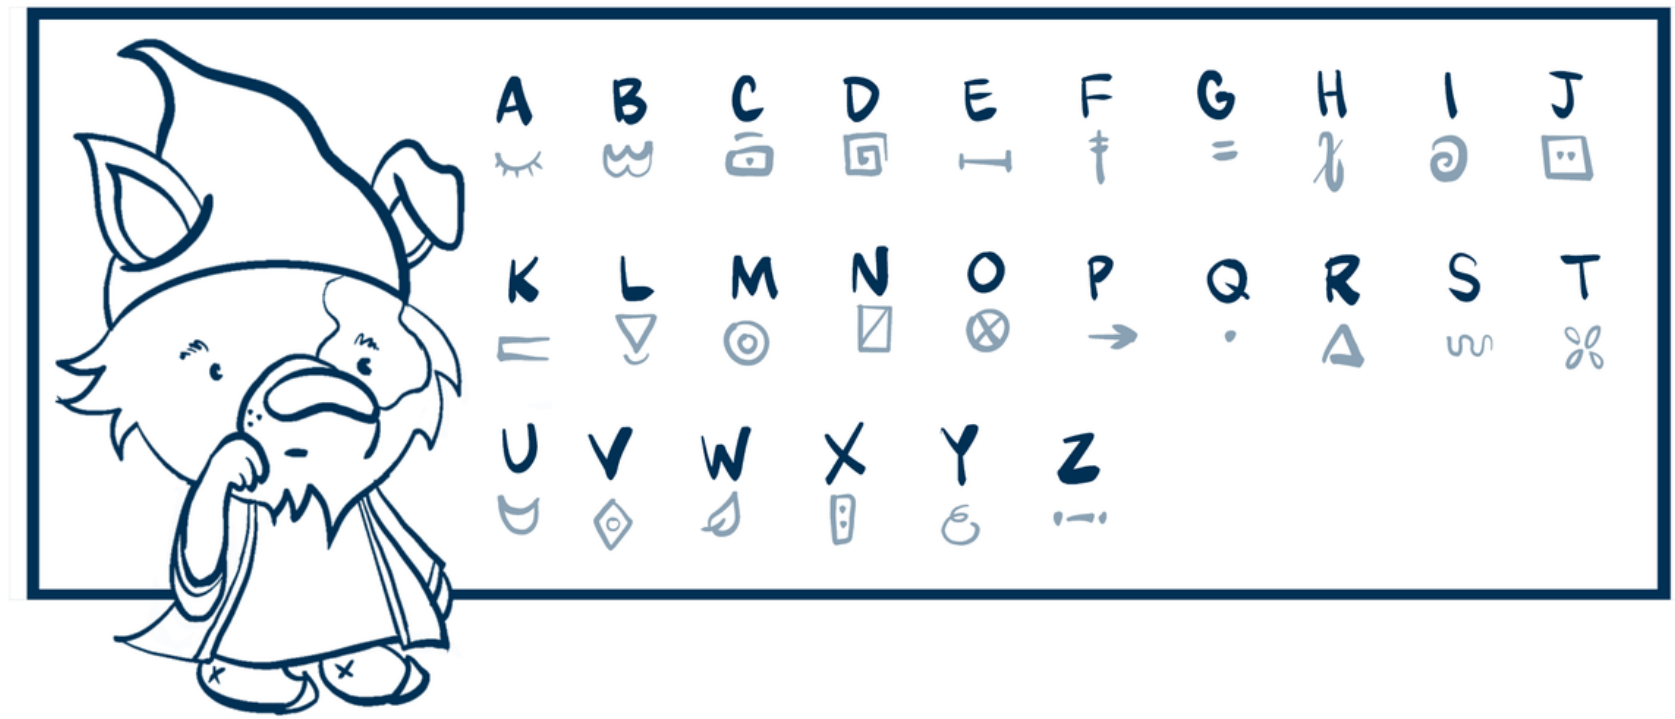
strongdm

Connect the dots to find the key.



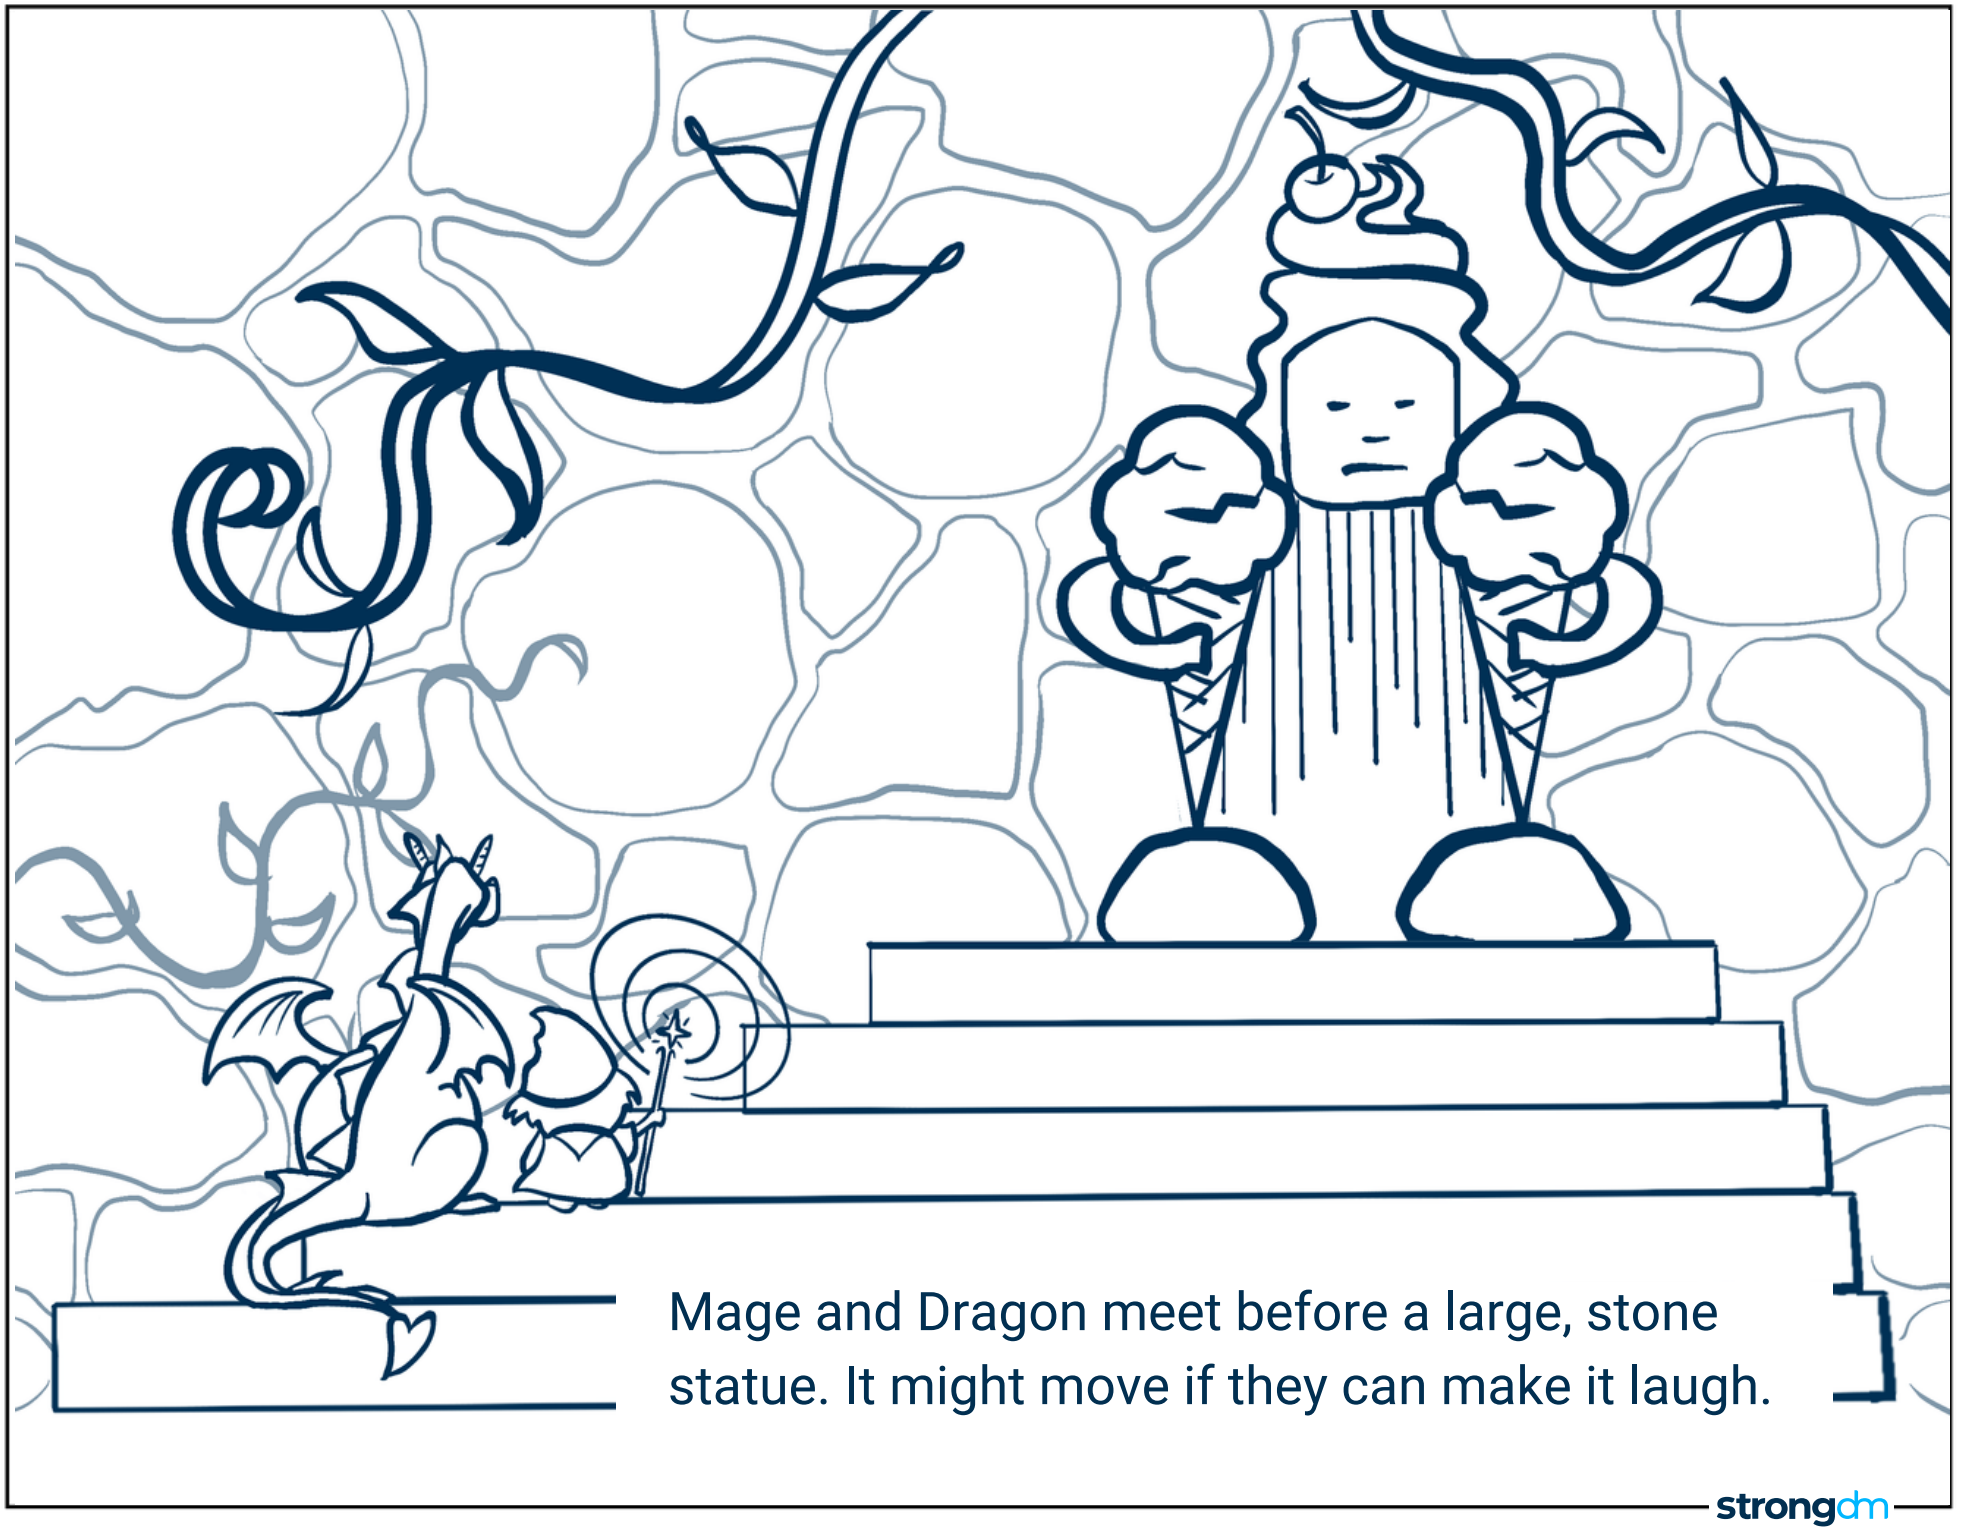
Mage needs to find the magic
password to lower the drawbridge.

strongdm



Can you help Mage decode the password?

strongdm



Mage and Dragon meet before a large, stone statue. It might move if they can make it laugh.

strongdm

Complete the story to make the statue laugh.

Mage: To make the statue laugh, we should do a magic trick!

Dragon: Yes! We should do the _____ trick!
[insert noun]

Mage: Wonderful! I love that one because it makes things _____.
[insert adjective]

Dragon: Oh wait! What about the one that makes _____ s _____ ?
[insert noun] [insert verb]

Mage: No, no. Last time we did it, _____ s were _____ ing for _____ days!
[insert animal] [insert verb] [insert number]

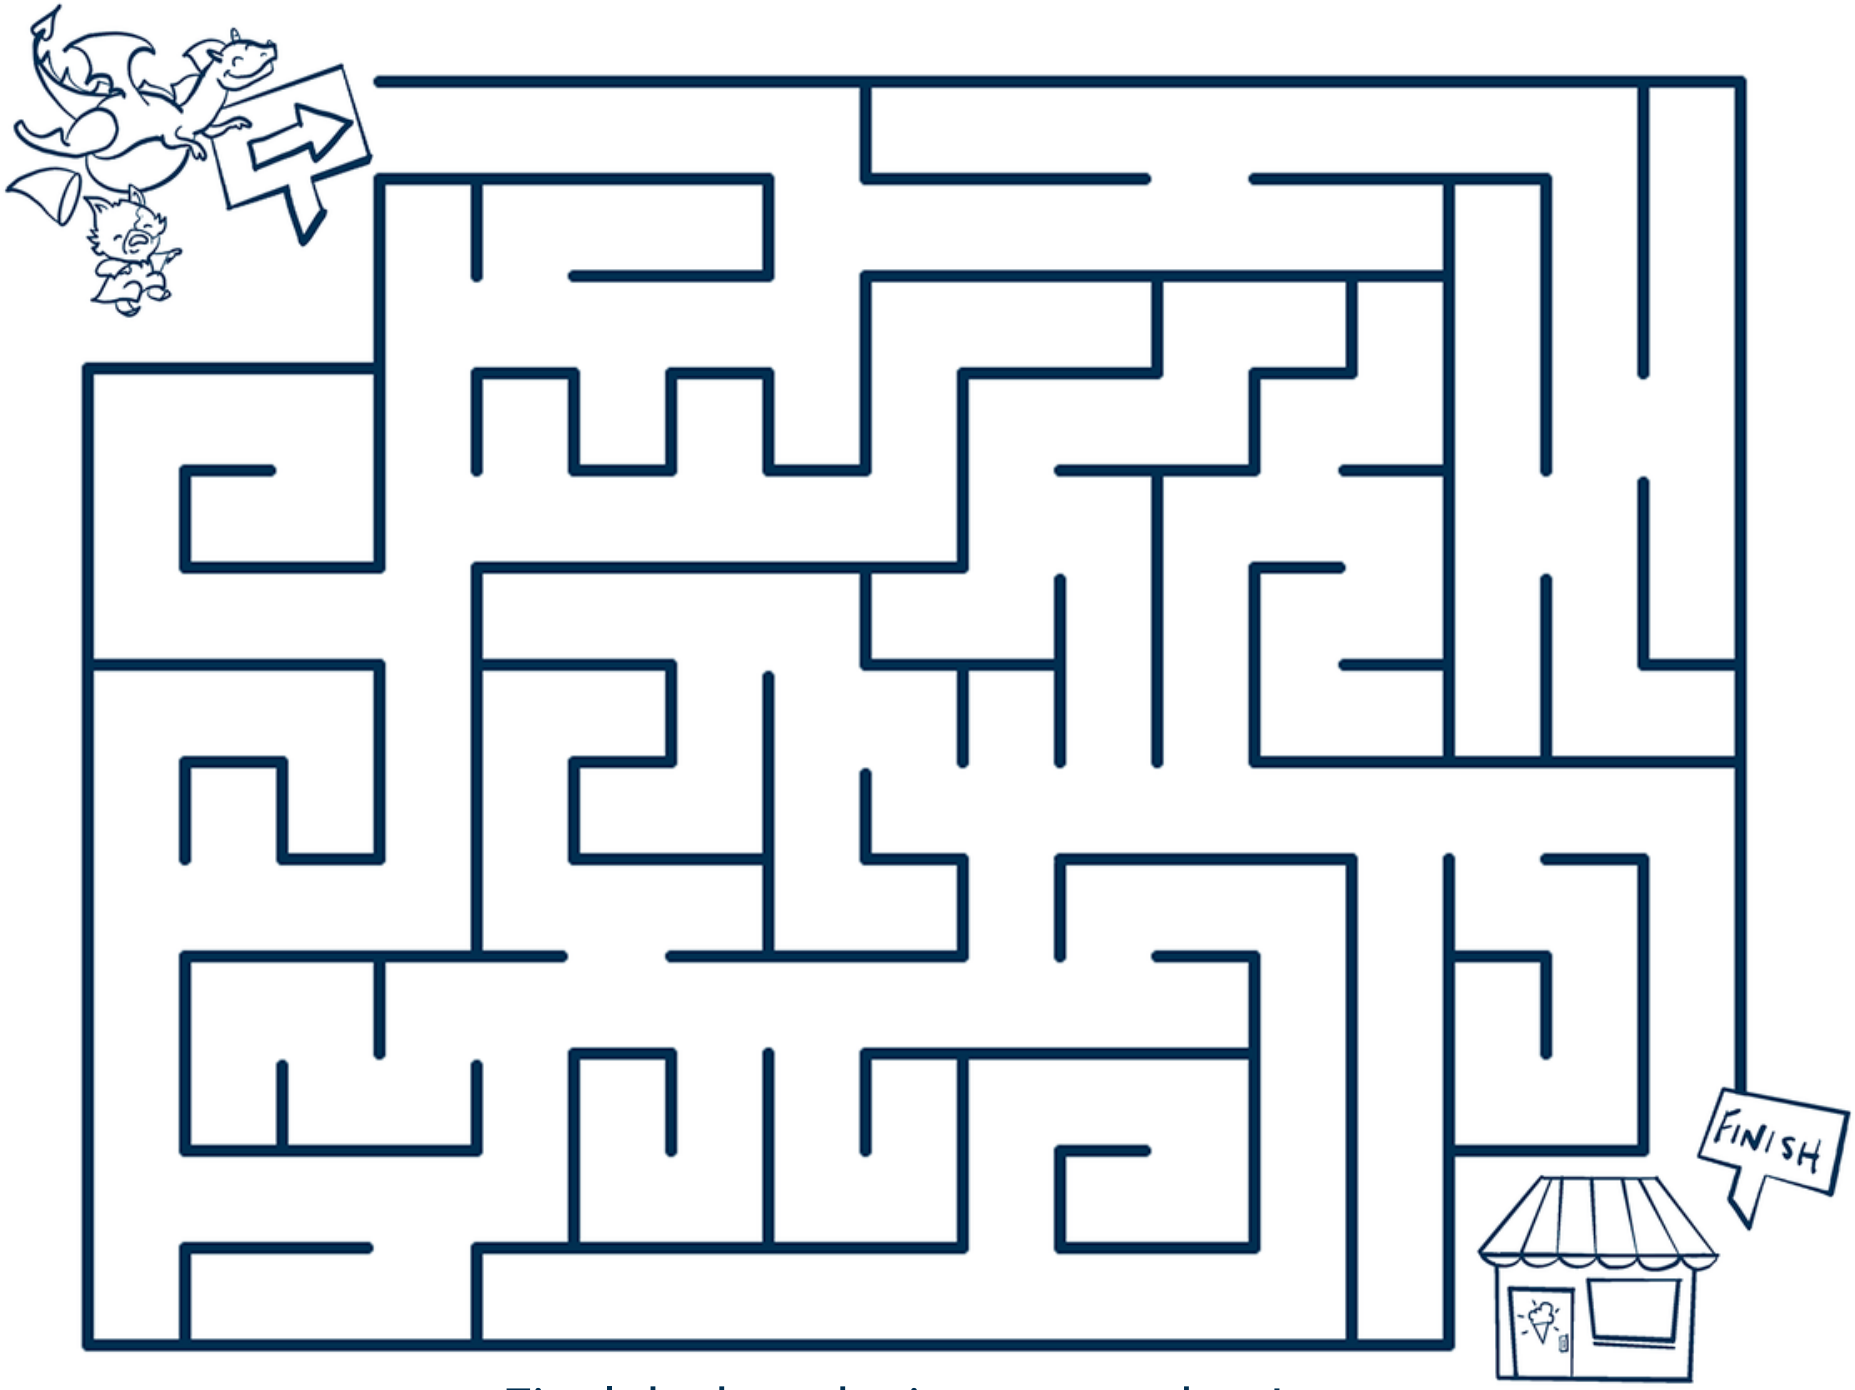
Dragon: Do you think the statue would laugh if we turned a _____ into a _____ _____ ?
[insert noun] [insert adjective] [insert noun]

Mage: Oh doggone it, Dragon! Just make up your mind, or I'll turn you into a _____ _____ that _____ s all day!
[insert adjective] [insert noun] [insert verb]

Statue: Starts to laugh.

Dragon: Oh Mage! You great _____, you've done it! The ice cream is ours!
[silly word]

strongdm



Final dash to the ice cream shop!

About strongDM

Did you know? Behind every game, website, and video on the internet lies a giant maze of computers we call infrastructure. It takes a lot of clever people to make this infrastructure work. Maybe you know one of them ☺.

strongDM's People-First Access platform offers direct access to the infrastructure people need to be productive–so they can spend less time running around solving puzzles and more time eating ice cream with friends.
